### BC Land Surveyor/Estimator

Polaris Land Surveying Inc. is looking for an experienced land surveyor to join our team. Polaris is a progressive firm with projects ranging from simple one lot topographic plans, through to large scale strata and air space developments. The Polaris model allows team members to work virtually, from any location and a work a flexible schedule.

Polaris is looking for an experienced BC land surveyor with the following skillsets:

- A solid understanding of survey principles, methodology, and technology
- Working within a team to identify client needs and expectations
- Explaining land surveying requirements to potential clients
- Estimating and budgeting survey projects
- Good communication skills, both written and verbal

If you have these skills and you are self-motivated, enjoy working in a dynamic and progressive environment where quality of work and client service are at the forefront, Polaris is the team you have been looking for.

This role includes receiving inquiries for surveys, working with the parties to determine a clear scope, setting out the required tasks, determining a budget range, confirming with a project manager and communicating the proposal to the client. For successful proposals there would also be a project set up process, scheduling and follow up.

This position is designed for flexible lifestyles, with the successful candidate working from a home office. If you want to skip the commute and have more free time, please contact Brent Taylor at [btaylor@plsi.ca](mailto:btaylor@plsi.ca) to learn more about this opportunity.
